

Public Partner 2016: Annual Contributor

Public Partners are government, academic, allied food and health non-profits, public interest, scientific and professional organizations.

One in six Americans will suffer a foodborne illness in the next year. As a key player in the food safety chain -- from farm-to-fork – your organization has a stake in educating consumers about science-based food handling practices.

Benefits	Tier IV \$1,000	Tier III \$2,500	Tier II \$5,000	Tier I \$10,000
