

FOOD RECALLS

What you should know about food recalls.

Recall notices can be found in the news, at your local grocery store, or online at www.recalls.gov.

To identify if a recalled product is in your home, match identifying marks on the product with the recall notice details such as:

- Product name
- Brand
- Container codes
- Container size

**identifying information may vary by type of food product.*

If you determine that a recalled product is in your home:

- Do *not* eat the product.
- Dispose of the product carefully.
- Do *not* provide the product to others (eg: do not give to food bank, your pet).
- Do *not* puncture or otherwise open cans.
- Wash hands with warm water and soap after handling the product.

The recall of one product does not mean all forms of that product are a potential problem.

Occasionally recalls are expanded to include additional products as more information is gathered.
